

Tailstocks.

Large bobbins / solenoids and air coils need a tailstock to support the outer flange during winding.

The WH-751 machine can be fitted with either a manual or a pneumatic tailstock, and either option can be mounted or removed in minutes. All tailstocks are adjustable for left-to-right position, and are provided with a removable precision angular contact bearing.

<i>Heavy Duty</i>	<i>Specifications</i>	<i>Pneumatic</i>
25 mm	Stroke length	50 mm
180 mm	Maximum clearance when open, from tool holder face to tailstock bearing face	150 mm
10mm	Bearing ID to locate tool	8mm
N/A	Air supply	5 Bars

We aim to be much more than a machinery supplier. Our team has a vast range of winding experience and is able to offer help and advice on all aspects of coil winding, from tooling design to machine choice and set-up.
